5. 2017-present- Co-chair of the Rotem Multidisciplinary Center for Sex Therapy
6. 2017- present – Co-chair EFS Scientific Committee
7. 2015- present- Member of the ESSM Scientific Committee

Please list your professional activities, with special reference to those dedicated to promote sexual health, sexual rights, sexology, sexuality education or research related to these areas:

My daily practice involves both clinical practice as a Sexual Medicine specialist and Sex therapist and Education, both to professionals and to the general public. I teach medical, nursing, physiotherapy and sex therapy students and run programs for sex education for adolescents and parents (together and separately).

As the President of the Israeli Society for Sexual Medicine I promote cooperation between different associations and disciplines, which I believe is the best way to approach sexuality – in a multidisciplinary way.  
Through educational activities I also promote respectful, humble and culturally sensitive dialogue between the different sectors of our multicultural society.

Make a short statement on why you want to belong to the EFS executive committee:

There are several projects that I believe we can accomplish in order to further advance our society and I would like to be part of these missions.

There is a great deal we can share in terms of knowledge, policies and resources. We must find new ways to communicate our experience and professional insight.

There are few eastern European societies in EFS and it would be enriching for all sides to embrace new countries.

I would like to promote the writing of position statements on different central topics.

If you are already a member of the executive committee, please outline your contribution to the Federation during your term of office:

Please state (in terms of time, attendance to meetings, working in specific projects) the commitment you are willing to make to work as a member of the executive committee if you are elected:

I will continue to actively participate in EFS meetings, spending the time necessary to participate in specific projects.

I would be especially happy to continue to take part in the scientific committee of EFS.
